In the realm of fly-fishing, there is no name more revered than Lefty Kreh. With over seven decades of experience and countless accolades to his name, Lefty is widely considered one of the greatest fly-fishing masters of all time. His casting techniques, honed over years of practice and observation, have become legendary, and his insights into the art of fly-fishing have revolutionized the sport.

In his book, 'Casting With Lefty Kreh', Lefty generously shares his wealth of knowledge and expertise with anglers of all levels. This comprehensive guide covers every aspect of casting, from the basics to advanced techniques, and is packed with practical tips and detailed illustrations that will help you master the art of fly-fishing.

The Lefty Kreh Casting Method

At the heart of Lefty's casting method is the concept of "line control." Lefty believed that by controlling the movement of your line, you could achieve greater accuracy, distance, and precision with your casts. He developed a set of casting techniques that emphasized smooth, controlled movements and minimal false casting.

One of the key elements of Lefty's method is the "pause" or "dwell" at the end of your backcast. This pause allows the line to straighten out behind you, giving you greater control when you begin your forward cast. Lefty also emphasized the importance of keeping your wrist straight and your elbow tucked in close to your body, which helps to stabilize your cast and reduce fatigue.

Step-by-Step Casting Instructions

'Casting With Lefty Kreh' provides detailed step-by-step instructions for a variety of casting techniques, including:

- **The Basic Cast:** The foundation of all fly-fishing casts, this technique is used for short to medium distances.
- **The Roll Cast:** A versatile cast that can be used in tight quarters or to avoid obstacles, the roll cast is ideal for presenting flies to fish in close proximity.
- **The Double Haul:** This advanced technique allows you to cast greater distances with increased accuracy and control.
- **The Spey Cast:** A specialized cast used for salmon and steelhead fishing, the Spey cast is designed for casting long distances with heavy flies.
