In today's rapidly globalizing world, the relationship between China and Europe is of paramount importance. As two of the world's largest and most influential economies, their interactions have a profound impact on global affairs. This book takes a comprehensive look at the complex and evolving relationship between China and Europe, examining perceptions, policies, and future prospects.

The book is divided into three parts. The first part explores the historical and cultural foundations of China-Europe relations. It examines how the two regions have perceived each other over the centuries, and how these perceptions have shaped their interactions. The second part analyzes the current state of China-Europe relations. It examines the economic, political, and security dimensions of the relationship, and identifies the key challenges and opportunities facing both sides. The third part looks ahead

to the future of China-Europe relations. It explores the potential for cooperation and conflict between the two regions, and offers recommendations for how to build a more stable and prosperous relationship.

This book is essential reading for scholars, policymakers, and anyone interested in international relations. It provides a comprehensive and up-to-date analysis of one of the most important relationships in the world today.
