Keynotes are the most characteristic symptoms of a remedy, and they can help to identify the correct remedy for a patient. Confirmatory symptoms are additional symptoms that help to confirm the diagnosis. The Desktop Guide to Keynotes and Confirmatory Symptoms provides a clear and concise description of each keynote and confirmatory symptom, along with examples of how they can be used in practice.

This guide is an essential reference for homeopaths who want to improve their understanding of homeopathic remedies and their applications. It is

also a valuable resource for students who are studying homeopathy.
