Woodhead Publishing in Textiles 141

The Footwear Industry is a complex and dynamic one. It requires a wide range of skills and knowledge to design, develop, and manufacture footwear. This book provides a comprehensive overview of the footwear industry, covering all aspects of the design and production process. It is written by a team of experts in the field, and it is illustrated with numerous diagrams and photographs.

The book is divided into three parts. Part One covers the design process, from the initial concept to the final production drawings. Part Two covers the production process, from the selection of materials to the final assembly of the shoe. Part Three covers the marketing and sales of footwear.

The Handbook of Footwear Design and Manufacture is an essential resource for anyone involved in the footwear industry. It is a comprehensive guide to the design and production of footwear, and it is written by a team of experts in the field.
