Capitalism is in crisis. The old certainties of the twentieth century – the Keynesian welfare state, the post-war boom, the Cold War consensus – have all been swept away. In their place, we have a world of growing inequality, financial instability, and environmental degradation.

In *Postcapitalism*, Paul Mason argues that we need to find new ways of organizing our economy and society. He explores the possibility of a post-capitalist future, in which the profit motive is replaced by other values, such as sustainability, equality, and democracy.

Mason's book is a thought-provoking and essential read for anyone interested in the future of our world. He offers a clear and concise analysis of the current crisis, and he provides a compelling vision of a possible future.

Reviews

"*Postcapitalism* is a must-read for anyone who wants to understand the future of our world." - Yanis Varoufakis, former Greek Minister of Finance

"Paul Mason is one of the most important thinkers of our time.

Postcapitalism is a brilliant and essential book." - Naomi Klein, author of *The Shock Doctrine*

"*Postcapitalism* is a timely and important book. Mason offers a clear and concise analysis of the current crisis, and he provides a compelling vision of a possible future." - *The Guardian*
