About the Book

Authored by a renowned group of Indigenous scholars and researchers, "Decolonizing Methodologies Research and Indigenous Peoples" provides a comprehensive overview of the decolonizing methodologies movement. It

explores the historical and contemporary contexts of Indigenous research, examining the power dynamics, biases, and ethical dilemmas that have shaped mainstream research practices.

The book presents a range of decolonizing methodologies, including participatory action research, community-based participatory research, narrative inquiry, and Indigenous storytelling. These methodologies are designed to center Indigenous voices, empower communities, and promote self-determination in research processes.

Through case studies and practical examples, the authors demonstrate how decolonizing methodologies can be applied in a variety of research contexts, including health, education, social work, and environmental studies. They highlight the benefits of these methodologies for advancing social justice, improving research outcomes, and fostering reconciliation between Indigenous and non-Indigenous communities.
