About the Author

Linda Renfroe is a certified medical billing specialist with decades of experience in the industry. She has trained countless professionals and helped them achieve success in medical billing. Her expertise shines through in this comprehensive guide, which covers everything you need to know about medical billing.

Unveiling the Chapters

"Medical Billing 101" is meticulously organized into chapters that delve into various aspects of medical billing. Each chapter is packed with valuable information, practical tips, and real-world examples.

Chapter 1: The Basics of Medical Billing

This chapter covers the fundamentals of medical billing, including:

* Understanding the healthcare revenue cycle * Different types of medical insurance * Patient registration and scheduling * Understanding medical terminology

Chapter 2: Coding for Medical Services

Coding is the backbone of medical billing. In this chapter, you'll learn:

* The basics of medical coding * How to use coding manuals * Common coding errors to avoid

Chapter 3: Processing Medical Claims

Once you have coded the services, it's time to process the claims. Chapter 3 guides you through:

* The different types of medical claims * How to submit electronic and paper claims * Troubleshooting common claim denials

Chapter 4: Following Up on Claims and Denials

Not all claims are paid without issue. This chapter covers:

* How to follow up on unpaid or denied claims * Appeal processes for denied claims * Tips for effective communication with insurance companies

Chapter 5: Managing Patient Accounts

Medical billing doesn't end with processing claims. Chapter 5 focuses on:

* Managing patient balances * Collecting patient payments * Handling insurance disputes

Chapter 6: Ethics and Compliance in Medical Billing

Integrity and compliance are paramount in medical billing. This chapter emphasizes:

* Ethical practices in medical billing * HIPAA compliance guidelines *
Avoiding fraud, waste, and abuse
