## Historical Context

Prior to the British conquest in 1843, Sindh was an independent kingdom under the Talpur dynasty. However, the arrival of the British East India Company disrupted the region's tranquility, leading to its annexation and incorporation into the Bombay Presidency. This marked the beginning of a

period of colonial exploitation and suppression that would last for nearly a century.

## **The Rise of Sindhi Nationalism**

The British Raj imposed a heavy tax burden on Sindh and neglected its economic and social development. This led to widespread resentment among the local population, which gradually coalesced into a nascent nationalist movement. The book meticulously documents the growth of Sindhi nationalism, highlighting the role of influential figures such as G.M. Syed and Allah Bakhsh Soomro.

## **Struggle for Autonomy**

The Sindhi nationalist movement advocated for greater autonomy and self-governance within the British Empire. Dr. Ali provides detailed accounts of the various constitutional proposals and negotiations that took place during this period. He analyzes the interplay between the Sindhi leadership, the British authorities, and the wider Indian nationalist movement.

## **The Road to Independence**

As India moved closer to independence in the 1940s, the question of Sindh's future became increasingly pressing. The book examines the complex negotiations that led to the partition of India and the creation of Pakistan. Dr. Ali argues that Sindh's aspirations for autonomy were ultimately compromised in the interest of national unity.
